Will check with Joanne presently. And yes, it certainly will.

By the way, jst found out that the site also had seen some RCRA listing, and is listed as WA ECY Titan Site; and guess what, the address is listed as U Rd Abandoned Missile Site. - Oh well -

Have a good weekend!

Monica.

I am done with this site. Two years ago I did field work there, and I just mailed today a preliminary assessment draft to Joanne LaBaw of your office. I won't be going back in other words. Hope this works for you.

Thanks much, Guy!!!

I think the Road 11 SE & Road U SE intersection being close. I could not get anything with the 11744 block. So I am assuming the first two digets, 11, are indicating the address is near the Road 11 SE intersection, and the 744 block is maybe a strange convention for labelling property address numbers. Because, neither mapping system has any numbers as large as a 117 block, or as small as an 11 block. I don't know how that works in that place. When you all get to go for your site assessment, maybe, you could make a note to let me know what the address really is, hmmm?

Thanks much!
